How following works in Gen 4

By the one and only bergmite fan

(PARODY)

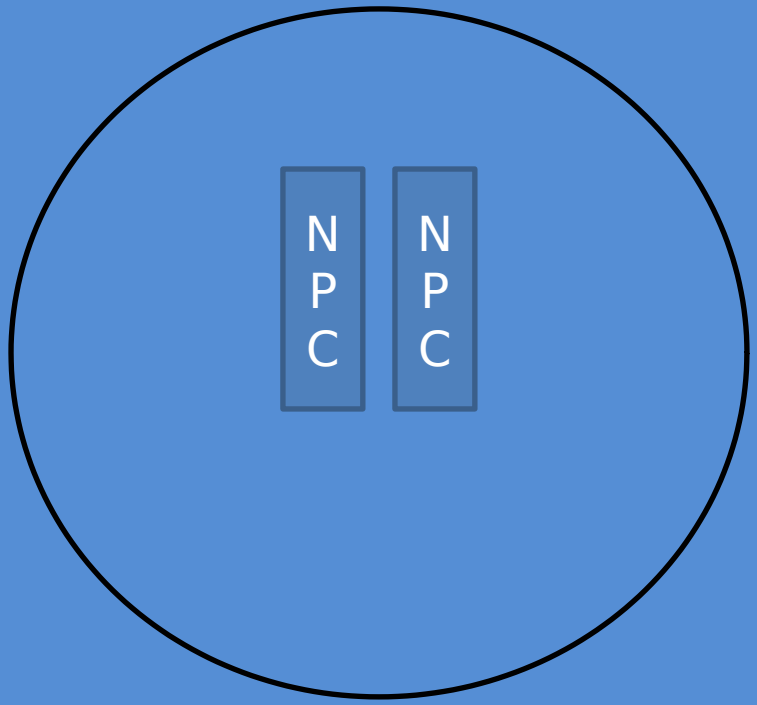
Following is made with this line of code:

Insert code here (I didn’t have the budget to find the decomp sorry)

Basically,

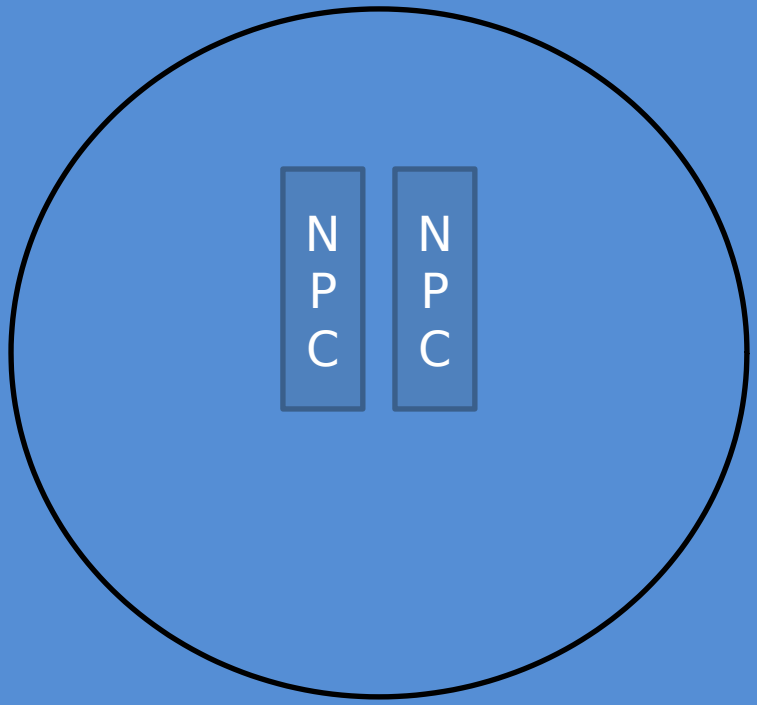
1. The textbox appears (i.e. Please follow me!
2. The NPC guides you to the specified direction
3. It plays another textbox (i.e. text here)

How following works in the Pokemon world



It carefully follows the direction of the NPC because it’s unrealistic

How following works in the Pokemon world



So technically speaking rowan I did not hold her hand and stay still for a while
